### PROFESSIONAL SUMMARY

---

I'm a Full Stack Developer with 6 years of experience, specializing in building scalable and high-performance web applications. I have strong expertise in HTML, CSS, TypeScript, and JavaScript, along with modern frontend frameworks such as **React**, **Angular**, and **Vue.js**.

On the backend, I have hands-on experience with **Node.js**, enabling me to design and develop robust APIs and microservices. I am also experienced in working with cloud and distributed systems technologies, including AWS, Apache Kafka, and Docker, which helps me build efficient, scalable, and containerized applications.

I excel at creating responsive, accessible, and user-friendly interfaces while ensuring seamless integration with backend services. I am passionate about staying up to date with the latest trends and technologies in full stack development and continuously strive to enhance my skills and deliver high-quality solutions.
